159 Salt Lane, Central City • [johnddominic@mail.com](mailto:johnddominic@mail.com) • 7877756411

Goal-getting software developer holding two years' experience in Python and Android Studio. Well versed in computer networking, PHP, skilled in analytical thinking and problem solving.

## **Experiences:**

*18/10/20XX – 09/05/201X*

Project Manager, Adamantium Shell Software Ltd.

Spear-headed projects related to software development in C++, Java and upcoming software. Managed a team of bright minded software developers and engineers to success in projects undertaken.

*06/07/201X – 20/02/201X*

Project Development Lead, Back-Seaters Software Ltd.

Lead a team of developers with projects pertaining to new-age programming languages and technologies.

## **Education:**

*March 20XX*

MASTER'S IN BUSINESS ADMINISTRATION (IT), CENTRAL UNIVERSITY

Secured 8.0 GPA, MVP for the football team and two-time inter-batch quiz winner. Over the two years, the course ventured into the IT execution in business and the impact of its absence in industries.

*May 20XX*

SOFTWARE ENGINEER (IT), CENTRAL COLLEGE OF ENGINEERING AND SCIENCE

Attained a 7.9 GPA, won the inter-collegiate football tournament, 6 athletic honors bagging 3 gold medals, 2 silver medals and a bronze medal. The four-year course took on the inner workings of software, debugging and set strict policies in learning how to code clean

## **Skills**

- Proficient in C++, Java, Python, Hadoop
- Adverse knowledge in Database languages and technologies
- Team leader and a team player
- Specializing in time management in project development

## **Activities**

As a team player, I enjoy playing team sports and found of playing the guitar. Playing online video games have led me to build one based in Unity 3D and it still goes on as new gaming projects emerge.
